Mohit Rana

Aspiring Full-Stack Developer | React, Python & Django Specialist |
GSSoC (Top 50) | Building Scalable Web Solutions
Dehradun, Uttarakhand, India

Summary

I'm Mohit Rana, a passionate software development engineer with
a love for coding, currently pursuing a BSc. in IT at Graphic Era Hill
University. With experience in front-end development, I specialize
in building responsive, user-friendly websites using HTML, CSS,
JavaScript, and React. I'm also expanding my skills into back-end
technologies like Python and Django.

Always eager to learn and grow, I enjoy collaborating with like-
minded individuals in the tech community. At present, I'm seeking
internship opportunities to gain hands-on experience in full-stack
development.

Feel free to connect with me if you're interested in tech, innovations,
or startups!

Experience

GirlScript Summer of Code
Open Source Contributor
October 2024 - November 2024 (2 months)

My journey in the GirlScript Summer of Code (GSSoC) Extended Edition
began with curiosity and quickly turned into a transformative experience. From
tackling my first pull requests and learning open source basics to taking on
significant feature development, I grew both as a contributor and developer. I
focused on meaningful contributions, forming connections with project admins
and peers who guided me along the way. The highlight? Ranking among the
top 50 out of over 3,900 contributors! This experience taught me the value of
collaboration, persistence, and learning for growth, not just points. Excited for
what's next!

Hacktoberfest
Open Source Contributor
October 2024 - October 2024 (1 month)

Completed Hacktoberfest 2024! After submitting four pull/merge requests and passing quality control, I earned the final level 4 badge from Holopin. This journey allowed me to contribute to open-source projects, collaborate with an incredible community, and deepen my skills as a developer. Grateful for the learning and connections made during this experience. Excited for more coding adventures ahead!

Freelance
Graphic Designer
April 2021 - August 2023 (2 years 5 months)

With over two years as a Graphic Designer, freelancing and working with a Dehradun-based production house, I created song posters, ad banners, social media posts, and YouTube thumbnails. This experience enhanced my problem-solving, design, and client management skills. While I've since moved on to new ventures, my background in graphic design still shapes my approach to creative, high-quality work.

Education

Graphic Era Hill University
Bsc IT, Information Technology · (June 2023 - June 2026)

Shri Guru Ram Rai Public School - India
High School Diploma, PCM · (April 2021 - April 2023)
